The core curriculum, completed in Year One, provides a strong foundation in all the key areas of business administration. As part of the core curriculum, all students participate in a required Global Study Tour.

Cross-functional study groups are assigned by mimicking real world team environments and designed to facilitate peer-to-peer learning and complement each other’s skill sets. Students are able to learn from and lean on one another for support.

In Year Two students can customize their learning with a diverse portfolio of elective courses and the option to specialize in up to three areas of study. Students choose 12 electives with the opportunity to build on the foundation of the core curriculum and go deeper into advanced topics in subject areas or to simply explore different aspects of several different disciplines.
A far-reaching perspective is a necessity in today’s global business environment. In Year One, all students participate in a week-long Global Study Tour that provides exposure to other global business centers. Executive MBA students explore the business practices of dynamic markets through site visits and meetings with high-level executives in key market industries, government representatives, and members of the diplomatic community.

Each international residency is a faculty-led course that is woven directly into the curriculum. Students embark on one required trip during their first year and can elect to participate in a second Global Study Tour in Year Two.

Recent Global Study Tours have visited Argentina, Chile, China, Czech Republic, Germany, Greece, India, Morocco, Peru, Spain, UAE and Vietnam.
The global aspect of the curriculum is enhanced by the peer group with whom you are learning. Students bring varied cultural perspectives to the classroom dialogue through their extensive personal and professional experience in other countries.

Current students and recent alumni of the Executive MBA program come from more than 45 different countries.
