ABOUT NANYANG TECHNOLOGICAL UNIVERSITY: Nanyang Technological University (NTU) is an established, research-intensive tertiary institution with a vision to be a global university of excellence in science and technology. While NTU repositions itself for the knowledge-based economy, with science and engineering remaining at its core, no less important are the other professional schools that have established, or are in the process of establishing, an international reputation. NTU was ranked 48th globally by The Times Higher Education Supplement in the 2005 ranking of the world's best universities. Placed 26th among technology universities, NTU remains well within the upper echelons of the world's best science and tech universities. NTU has 4 colleges, comprising 12 schools. The College of Engineering, with six schools focused on technology innovation, enjoys wide renown and currently ranks fourth in the world in engineering publications. The College of Science is at the forefront of Singapore's life sciences and science initiatives, while the Nanyang Business School (which is the College of Business) offers one of the world's top 100 MBA programmes. The College of Humanities and Arts boasts Singapore's first professional art school offering degree courses in art, design and interactive digital media, the Humanities and Social Science School, and the Wee Kim Wee School of Communication and Information, one of the best communication and information schools in Asia. The 13th school, S Rajaratnam School of International Studies, will be inaugurated in 2007. An important component of this autonomous school is the Institute of Defense and Strategic Studies, long recognized as a world authority on terrorism. The 200 hectare residential campus, located in the south-western part of Singapore, was originally developed by the Chinese community for a Chinese language university, Nanyang University in 1955. The university was established with donations from people from all walks of life and of all ethnicities in the region. In 1981, Nanyang Technological Institute was established on this campus to educate engineers for the rapidly developing Singapore economy. In 1991, Nanyang Technological University (NTU) was inaugurated and in April 2006, NTU was corporatised as an autonomous university.
