**Notes:**

1) **This is an intensive, demanding course.**
2) Knowledge of **corporate finance** is highly recommended.
3) Class discussions of current M&A events may make the schedule change. Please follow the announcements in class.
4) Students are expected to abide by the Stern MBA Honor Code in all aspects of this course.

**Course Description:**
The course presents the theories and empirical evidence on mergers, acquisitions, and restructuring, and analyzes the effects of various policy options on stock values of acquirer and target companies. Findings on the reaction of stock prices to information on control transactions will be used to analyze the effects of various policy options in such transactions. Topics include valuating acquisition targets, methods of payment in acquisitions, strategies of acquisition, the use of leverage in acquisitions and the effects of acquisitions on bond values, major legal issues, case laws and defensive measures against hostile acquisitions. The course combines lecture material, analysis of cases, quantitative and qualitative analysis, and discussions of relevant news of such transactions. There will be an emphasis on fundamental concepts of valuation and other areas of corporate finance related to M&As. This course is a suitable elective for students majoring in finance as well as students in management with knowledge in finance. Students are encouraged to follow the M&A activity that is reported in the press during the semester and bring up issues and events associated with material covered in class. Please coordinate with me in advance.

**Grading:**
Homework - 30% (all assignments are equally weighted), final exam - 70%. The final grade distribution is expected to be as follows: 25% -30% A and A-, 15%-20% C (inc. +/-), D & F, and the balance B (+/-). Class participation may help in marginal cases. Homework assignments are done in **groups of three**. Make sure that at least one in the group has studied corporate finance.
Reading material:

Additional reading material will be provided in class during the course, and posted. (Unfortunately, there is no single textbook in M&A that covers all the material that we cover in this course.)

Assignments:
Assigned readings; solving the case Cooper Industries (available in the bookstore) and two sets of problems/cases that will be provided in class. The three written assignments should be solved in groups of three, formed by the students. At least one member of the group should have taken a course in corporate finance.

There is a final exam (last class).

**Rules:**
1) Final exam: Failing to participate in the final exam leads to failing the course. The exam is closed books, closed notes. You should bring a standard calculator.
2) Class: Computers (including hand-holds) cannot be used in class. Late coming is not welcome.
3) Homework and cases will be solved in class. Written solutions will not be distributed. You need to get the solution in class. If anything remains unclear, I’ll be happy to explain, in class or during my office hour.
4) Homework: solutions should be submitted in hard copy, one per group. Please do not ask me how to solve them, and please do not check with me whether your solution is “on track.” Please understand, it is for you to solve the HW problems on your own. As it is, the guidance that I provide for the case compromises its objective, which is to put you in a real-life business situation and tackle it on your own.
5) Some (not all) of the homework is on material that has not been fully covered in class. You will need to do some learning on your own in order to solve the cases, you will have to think and be creative.
6) Please note the workload in this course in terms of written assignments (some are cases) and readings. In the past, some students thought it was heavy and “exhaustive.”
7) Classes are not recorded.
8) **ASK QUESTIONS** either in class or after class.

Students may enter class late only if given permission by the instructor and can do so without disrupting the class. Note: Instructors are not obligated to admit late students or may choose to admit them only at specific times and instructors are not obligated to readmit students who leave class.

Professors will make exceptions for religious observance or civic obligation only when the assignment cannot reasonably be completed prior to the due date and the student makes arrangements for late submission with the professor in advance.

Classroom Norms
- If applicable, note your preference regarding food in class.
