The Corporate Finance Track provides rigorous training in (i) corporate financial decision-making, including value creation, corporate governance, and agency issues and (ii) the markets for corporate claims and corporate control, including the role of financial intermediaries. Elective courses can be chosen to emphasize financial management and reporting, entrepreneurship, banking, or international issues. With an appropriate choice of elective courses, this track provides in-depth preparation for careers in investment banking, private equity, venture capital, equity research, credit analysis, corporate treasury, financial consulting, corporate accounting and audit, tax and law, global finance (e.g., IMF, World Bank), central banking, and regulation (e.g., SEC), economic consulting and policy, as well as graduate school in finance, economics, or accounting.

Important note: Students must fulfill all required prerequisites for any course listed. For information regarding course prerequisites, please refer to the Undergraduate Bulletin (www.stern.nyu.edu/bulletin) and for College of Arts and Science courses (http://cas.nyu.edu/page/majorsandminors).

Requirements are subject to change. For the most up-to-date requirements please refer to what is posted online: bit.ly/stern-tracks
